**COMMENTS ON STATEMENT OF
REASONS FOR ALLOWANCE
UNDER 37 C.F.R. § 104(e)**

Sir:

A Statement of Reasons for Allowance accompanied the August 24, 2006 Notice of Allowability regarding the above-identified application. Although Applicant agrees that the claims are patentable over the art, entry of the Statement into the record should not necessarily be construed as any agreement with or acquiescence by Applicant in the particular reasoning set forth in the Statement, particularly to the extent if any that the wording used in the Statement may differ from the actual claim language and/or the otherwise proper interpretation of the claim language.

The Statement sets forth a single rationale for patentability with respect to all of the allowed claims. However, the language of the Statement does not precisely track the wording of any particular independent claim. Also, the Statement suggests that the features paraphrased in

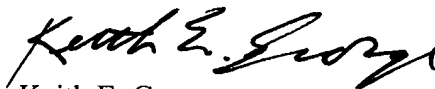

the Statement are not taught in the prior art "in combination with all of the other claim limitations." It is submitted that each claim is independently patentable in its own right, in view of the recitations that actually appear in each respective claim. Also, the Statement's reference to the "combination" should not be construed as placing any additional weight on other individual elements of the claim or a requirement for combinations of recitations from different ones of the allowed claims, and as such, the Statement should not impose any cumulative requirement for patentability or related estoppel with regard to any claim element.

It is respectfully submitted that the allowed claims should be entitled to the broadest reasonable interpretation and to the broadest range of equivalents that are appropriate in light of the language of the claims, the supporting disclosure and Applicant's prosecution of the claims, without reference to the Statement of Reasons for Allowance.

To the extent necessary, if any, a petition for an extension of time under 37 C.F.R. § 1.136 hereby made. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account 500417 and please credit any excess fees to such deposit account.

Respectfully submitted,

McDERMOTT WILL & EMERY LLP
